And today, on my birthday: I trust in God, and I trust in myself too! I trust in what God has placed in my hands: To carry out the Work He promised for this end time.

And God will give me the victory! And God will give all of you the victory too!

(...) And that is what God is carrying out in this time. That is that Dreamer who has taken the Scripture, has made it his own, part of him, and has performed it; regardless of opinions, or comments, or anything; but will always be straightforward, bringing everything that God gives him for the people, and establishing first and foremost that Kingdom in the heart of each chosen one of God; and also carrying out the Work for that physical establishment of that Messianic Kingdom, Jewish Kingdom.
